- I do not know why, but the **bald orcs**, who had been hiding in the Merry Mountains, have started to invade our forest in groups. It is understandable that the bald orcs, who used to be our slaves, have forgotten their place and dare to challenge us!
- According to the reports of the assassin scouts, the bald orcs are not simply coming to attack, but are preparing for a large-scale migration. A sudden invasion of the bald orcs... Perhaps those cunning Elves of Light are behind this!
- These woods are our home. We have defended ourselves every time the greedy Humans or the Elves of Light invaded us. We cannot allow an inferior race like the bald orcs to threaten our world! All the Warriors of our race must come together to punish them in the name of Shilen. Would you like to participate?
