the black serpent's egg' to the 'children of abyss'...? The castle of the evil Beleth once stood in the present-day Wastelands... This is why there are so many malevolent artifacts there. Perhaps the black egg that Brankel mentioned has something to do with Beleth... [Ask about the Children of Abyss](#)

Those heathen followers of the Goddess of Destruction. Or should I say 'The children of Shilen'... Bah!

I am sure that race is behind the mischief that has been going on lately!

You must hurry and go to Giran! If what Brankel says is true, the Breka Orcs are having the black egg delivered to them! Are these the only runes you found? There are likely more of them so keep searching.

You should go to **the Town of Giran** and meet **Prefect Vokian**. He owes me a favor, and will certainly help. Some things only an Orc can do. Ask him about the Breka Orcs.

Magister Gauen: Here is the Crescent Bow. This bow is different from other bows, as there is magic in it designed to kill Commander Kadesh. Keep in mind that you can only shoot a Wooden Arrow with this bow.

You must kill Commander Kadesh with the Crescent Bow. Right now he is still somewhat weak but as time goes by he will grow stronger and cause more damage. First you must go to Hamil and find out where Commander Kadesh is located.

Go now. The Ivory Tower wishes you victory.

Sagittarius Hamil:

Brankel lives! I met with him shortly before he left for the south of Oren. Commander Kadesh is currently surviving off the flesh of Leto Lizardmen.

Dammit! I should've gone with Brankel!

Oh! Look! The crescent arrow! I haven't seen it in 20 years! Take it and follow Brankel! Kill the Leto Lizardmen and Kadesh will appear! Kill him with the crescent arrow!

You mustn't use any other method or skill, or the power of the arrow will disappear and Kadesh will survive!
